PROFESSIONAL SUMMARY

Data Analyst and AI/ML enthusiast skilled in Python, SQL, Power BI, Excel, and data visualization, with experience in transforming raw data into actionable business insights. Passionate about data analytics and AI.

EDUCATION

Vels Institute of Science, Technology & Advanced Studies (VISTAS), Chennai

B.Sc. Computer Science – Specialization in AI & ML

CGPA: 9.41 | 2023 – 2026

Saradha Matriculation Hr. Sec. School, Gingee – Villupuram

HSC – State Board of Tamil Nadu

88% | 2023

SSLC – State Board of Tamil Nadu

85% | 2021

EXPERIENCE

VCODEZ

July 2025 – Sep 2025 (3 Months)

Data Analyst Intern

- Conducted data cleaning, transformation, and exploratory data analysis on **15+ business datasets** using Python, SQL, and MS Excel.
- Built **6+ Power BI dashboards** featuring automated reports, KPI tracking, and interactive visual analytics.
- Optimized SQL queries and data workflows, improving reporting efficiency and reducing manual processing time.
- Coordinated with team members and stakeholders to deliver analytics solutions aligned with organizational goals and business requirements.

UPTOSKILLS

Dec 2024 – Mar 2025 (3 Months)

Data Analyst Intern

- Performed end-to-end data cleaning, preprocessing, and transformation on **10+ datasets** using Python, Excel, and Power BI.
- Developed **5+ interactive dashboards and KPI reports** to support business decision-making and performance tracking.
- Applied data visualization, statistical analysis, and reporting techniques to identify trends and actionable insights.
- Collaborated with cross-functional teams in agile review meetings, ensuring **95% on-time project delivery** and reporting accuracy.

PROJECTS

AI-Powered Rider Assignment & Route Optimization

- Developed an AI-powered rider assignment system using Python and Streamlit that automatically matches delivery orders to the most suitable rider based on distance, availability, rider rating, and workload.
- Implemented route optimization using the Nearest Neighbor algorithm and managed the complete delivery lifecycle, including order assignment, completion, cancellation, and dynamic rider status updates.

Smart Chat Intelligence Engine

- Developed the **Smart Chat Intelligence Engine**, an AI-powered WhatsApp analytics platform using Python, Streamlit, Plotly, Pandas, NLP, and Machine Learning techniques. Performed data modelling and transformation using Power BI, Excel, and SQL, visualized trends via KPI cards, charts, and maps.
- Built interactive dashboards to visualize KPIs including message activity, sentiment trends, response time analysis.

TECHNICAL SKILLS

Languages: Python, SQL

Developer Tools: VS Code, Jupyter Notebook, GitHub, Microsoft Excel, MS Office, Power BI

Cloud / Databases: AWS (S3 Bucket), MySQL

AI/ML & GenAI: Machine Learning, Deep Learning Fundamentals, Natural Language Processing (NLP), Generative AI, Large Language Models (LLMs), Prompt Engineering, LangChain (Basics), Retrieval-Augmented Generation (RAG), OpenAI API

CERTIFICATIONS

Coursera – Data Analysis and Visualization with Power BI [Certificate](#) | Inspire Softech Solutions – Python Programming [Certificate](#) |

HP LIFE – Data Science & Analytics [Certificate](#)

LANGUAGES KNOWN

English, Tamil
